

Dear property owner,

Is your commercial property an investment?

If so, you may be eligible to claim property tax depreciation, lowering your taxable income by potentially thousands of dollars per year.

Deppro Commercial is Australia's leading property tax depreciation company, specialising solely in the preparation of tax depreciation schedules for residential, commercial and industrial investment properties.

Using a Deppro Commercial report when preparing or amending taxation figures is the best way to ensure you are claiming all the depreciation tax benefits available to you for your investment property.

Some further details about our commercial property service:

- On site inspection of your investment property by one of Deppro Commercial's senior inspectors
- Comprehensive schedule which includes both the diminishing value and prime cost methods of depreciation.
- Breakdown of capital works allowance (Division 43) and plant and equipment (Division 40) asset category calculations
- 40 year summary of entitlements valid for the lifetime of your ownership
- Completely up to date with the Australia Tax Office requirements and process-approved by the ATO
- Deppro Commercial guarantees to assess depreciation entitlements to an amount at least double its professional fees in the first full financial year. If we don't, we will refund all fees and provide the report for free!
